**A**

When you're faced with tri - als or temp - tations  
Do you doubt sometimes that you're a Christian?  
You can fill your life with comp - li - ca - tions

And you've got no time for contemplation  
You know the Lord's in charge of your position  
Or make your life a song of sync - o - pa - tions

**D**

What you gonna do?  
Do you live by faith  
Who you gonna trust

How you gonna make it?  
Trusting in your Maker?  
Who will you be - lieve in?

**A**

You can lose it all  
Do you wanna give  
Find it in the Word

if you try to fake it  
or are you just a ta - ker?  
or forever keep on seekin'

**E**

You were bought with a price,  
You can know a tree  
You could gain the world

**D**

now live that way  
by the fruit it grows  
and lose your soul

**E**

don't let the world  
If you're one with Christ  
Or let the Lord

**D**

take your joy away  
you can bet it shows  
be in con - trol

**A**

from you  
in you  
of you

---

Just remember now...  
Let me tell you now...
